# PRESIDENT'S REPORT

## ANNE-MAREE CONROY - VSTA PRESIDENT

There has been no doubt that 2023 has been an extremely difficult for all, especially participants in Harness Racing. With the ever-increasing living costs, interest rates escalating and stake money reducing, it has been hard for all and I offer my congratulations to all who have made it through. Almost daily we are hearing of people leaving the industry, breeding numbers down and return on investment being lower and lower. It has been nothing but gloom and doom and recent meetings with HRV has not painted a pretty picture. Just a read of HRV's annual report shows exactly where the industry is. BUT we, as a kindred body, must continue to work with HRV to assist in forming a pathway forward. We must assist with planning, programming and finding any roses among the pit of what we shovel every day. We must meet, discuss and plan for our future, otherwise we as an industry will not have a future. We will participate in Harness Racing Advisory Council, HRV planning subcommittees and the forecast programming sub-committee. Even the cost analysis survey that many members completed has made HRV more and more aware of the costs involved in maintaining, training and racing the standard-bred. This VSTA initiative has been one of the centre-pieces of the cost analysis by Ernst-Young.

For the VSTA, 2023 has been a year of consolidation and re-building. The consolidation of our committee to be cohesive, positive, hard-working and supportive of each other with the same ideals - promoting the trotter.

I would like to thank the committee for all of their hard work and commitment.

We have had to rebuild fractured relationships with HRV and other kindred bodies. Meeting with HRV in a positive manner, assisting and continued dialogue with programming. The executive has built a positive relationship with various members of the executive of HRV. Bi-monthly meetings are again on the agenda and we look forward to taking your ideas to the HRV.

The committee worked very hard to maintain the minimum stake money of \$4500 rather than the \$3000 suggested by HRV. We presented a comprehensive analysis of our suggestions for stake money distribution. The VSTA will continue to sponsor races with increased stake money and trophies to try and ease the financial pressure on our members. As part of HRV's cost cutting, they have had to reduce stake money and the VSTA will continue to fight for the 'lower-end' of stake money to be at least maintained and when the situation improves, then stake money can also improve.

The VSTA has been and continue to be involved in meetings with other kindred bodies and government departments about the current state of Harness Racing in Victoria. Although it has been depressing, we must keep working towards the end goal of survival.

This year has been successful on many fronts for the VSTA.

The Redwood Carnival was again a great success and congratulations to the Maryborough Harness Racing Club, Jackson Barby and Les Chapman

The Stallion Raffle was an outstanding success. A big thankyou to Haras des Trotteurs, Pat Driscoll and Louise Toulmin for sponsoring and arranging the stallion services.

Also thankyou to all the ticket sellers and especially everyone who bought a ticket. Money raised through this fund raiser will be used to support our members in various ways. Again, the committee would welcome any suggestions going forward.

The newsletters produced by Bianca Brehaut have been of an exceptional standard, worthy of publication. These can be found on our webpage.

The membership recognition award continues to be very well received by the recipients.

Membership numbers maintain healthy at almost 250, but don't forget to renew your membership for the 2024 season.

The Cost Analysis survey completed by members clearly indicated the current position of participants and was a corner-stone of financial analysis for HRV

Finally, I would like to thank all of the committee members for their support and efforts throughout the year and thankyou to all of our members for your continued support.

After our Annual General Meeting, we are pleased to announce the VSTA committee for 2024.

**Vice-President-** Tony Xiriha

## TROTTING STALLION FEATURE

# E L TITAN YEARLINGS IN HIGH DEMAND

Yearlings by Haras Des Trotteurs' new trotting stallion E L Titan 1:51.4 (\$726,344) were keenly sought by buyers at last week's Black Book Sale at Harrisburg, Pennsylvania.

There were four youngsters by the young Muscle Hill horse sent through the ring and they averaged out at \$60,500, the sixth highest average for a trotting sire.

An E L Titan filly, Killেমwithkindness, realised \$100,000 and a colt, Wordplay Blue Chip, sold for \$67,000.

E L Titan's average put him ahead of established sires such as Credit Winner, Muscle Mass, Father Patrick, Tactical Landing, Cantab Hall and Trixton.

E L Titan, who is standing his first Australian season at Cobbitty Equine Farm in NSW, has sired the winners of \$11.3million in North America to date including \$2.6million this year.

Bred in Finland, E L Titan raced solely in America and was a Stakes winner as a two, three and four-year-old. He finished in the money in 16 of his 20 lifetime starts.

E L Titan is one of the most fashionably bred trotting sires available to 'down under' breeders, being by the mighty Muscle Hill from the same family as the leading sires Conway Hall, Angus Hall, Andover Hall and so on.

The brilliant, young stallion has attracted almost 90 bookings in his introductory season at a fee of \$3,500 plus GST.

Haras des Trotteurs stood Volstead in his first season at stud in Australia.

The son of Cantab Hall has had nine winners in Australia.

Queensland 3yo gelding Not As Promised completed the Victoria Trotters Derby-Breeders Crown double and 3yo filly Rockinwithattitude had her fourth group 1 victory.

## TROTting STALLION FEATURE

### PEAK TO THE SIRE FOREFRONT

The Danish bred horse Peak, who later raced successfully in New Zealand and is now standing at Mountain View Stud near Ballarat, is proving one of the quiet achievers of the Australasian trotting scene.

This season the dual Group 1 winning son of Ganymede has sired 22 individual winners in Australia and \$495,238 in stakes and 18 winners in NZ for \$331,519 and is ranked among the Top Ten sires in both countries.

Heading the vanguard in Australia for Peak are the Menangle Trotters Cup victor Doff Your Cap, the Group 3 Albion Park winner Funny Face and the NSW Foundation and Canberra Cup winner Jungle Eyes.

He has also left a string of metropolitan winners including Racing Eyes and Queen Of Strathfield (Menangle), Perfect Peak (Melton), Top Of The Moment and Set Me Free (Albion Park), Sir Ed (Globe Derby Park) and Elegant Peak (Gloucester Park).

In New Zealand, Peak has sired this season's

Group 3 winner Rosie, Vertigo (4 wins) and the Group 1 Great Northern Derby placegetter Aardie's Peak.

All told, Peak has left 17 Australian bred winners from 21 starters – an amazing strike rate.

## MEMBER RECOGNITION AWARD

### TINA RIDIS

Congratulations to Tina Ridis, the latest recipient of the VSTA Member Recognition Award. Tina has been a member of the VSTA for over 10 years, including a period of time as a member of executive committee. Tina is riding the crest of a wave at the moment, winning races with Chantilly Dee, Prince of Rock (including heat and final in the Nutriens 3-Y-O Trotters Classic, 3rd in the heat and final of VicBred Super Series and an agonisingly 'nose' second in the Haras des Trotteurs Derby), Rastamon and places with her favourite horse – Mumstheword.

Tina has been around the harness racing industry her whole life, with her father owning, training and driving during her childhood. She has a lot of fond memories in harness racing, but like many, her favourite memory is driving her first winner. This was driving Trimmers Son at the old saucer track at the Horsham showgrounds. Tina believes that getting a winner, with any horse at any meeting as her biggest achievement in Harness Racing. Tina firmly believes that all winners are equally important.

Asked why she chose trotters, Tina replied that she used to have pacers, but was drawn to the challenge of training and driving trotters. Her favourite horses include Mumstheword, who she owns, trains and drives and Tina describes ss an honest horse who always tries hard and Prince Of Rock with whom she has had recent success. Tina states that her favourite track is Lord's Raceway Bendigo, despite the finding it a difficult track to have success on.

Not considering herself as superstitious person, Tina never wears green when racing and always ensures she has clean driving pants for every meeting.

Looking forward, Tina hopes to see changes to the handicapping system and increases to prizemoney in harness racing. She wishes to see an improvement to the current programming structures and to ensure that all horses have a fair and equal opportunity to race competitively.

Personally, Tina hopes to be able to consistently achieve success with her team.

The VSTA congratulates Tina on her recent successes, her long standing reputation in trotting and wish her all the best for the future.
